

Ukraine Emergency

Situation Report #9

3 June 2022

Covering the period from 29 April to 2 June

69 tons

SRH supplies
delivered

23,194

Dignity kits
/essential packs
delivered

4.4m

People reached

Highlights

- Nearly 70 metric tons of **reproductive health equipment and supplies** were delivered to hospitals and youth-friendly health clinics across **Ukraine** and **Moldova** to support the provision of lifesaving sexual and reproductive health (SRH) and gender-based violence (GBV) services.
- UNFPA is working with the Deputy Prime Minister's office in Ukraine to develop an **online platform for complex support to survivors** of GBV, including rape and other forms of conflict-related sexual violence. Psychotherapists and medical and legal specialists will provide online support and consultations.
- **3 mobile reproductive health teams** were deployed in the Kyiv and Lviv regions. Since 26 April, **823 women** received sexual and reproductive health services and referrals to specialised medical services.
- **All refugees from Ukraine are guaranteed a full package of free sexual and reproductive health (SRH) care in Moldova** through an agreement signed between UNFPA and Moldova's National Health Insurance Company. UNFPA budgetary support to the national health system covers antenatal and postnatal care, delivery including c-section, and treatment for sexually transmitted infections.
- UNFPA is partnering with the International Planned Parenthood Federation European Network (IPPF-EN) and the Centre for Reproductive Rights (CRR) to support national efforts in **EU countries neighbouring Ukraine** to ensure that women, young people and marginalized populations fleeing the war in Ukraine are provided with **access to SRH care and GBV information and services**.

Situation Overview/ Humanitarian Needs

- As the war enters its fourth month, humanitarian conditions worsen in both eastern and southern Ukraine, with large-scale destruction and disruptions in electricity, water and gas supplies.
- Multiple forms of GBV cases are being reported, with particularly high insecurity and risk for **women and girls on the move**, at border crossing points and transit/collective centres, and in bomb shelters. There continue to be several reports of intimate partner violence, sexual exploitation and abuse, sexual harassment, sexual violence (including conflict-related sexual violence), and economic abuse.
- As of 2 June, the number of **attacks on health facilities** verified by [WHO](#) had risen to **244** and **access to health care** continues to pose a significant challenge due to severe disruptions in critical services and additional patient workload in the western part of the country.

UNFPA Humanitarian Response*

- **Across Ukraine**, UNFPA is coordinating with **10 shelters, 8 crisis rooms, 3 daycare centres and 9 service delivery points**, prepositioning supplies and distributing dignity kits and essential packs.
- **Nine Orange Safe Spaces** for women, youth and older persons are now operational **in Moldova** with a trained psychologist in Chisinau, Nisporeni, Criuleni, Kongaz, Ocnîța and Palanca Bus Station.
- An Orange Safe Space was established in **Gomel city in Belarus** with psychosocial and humanitarian support from trained Red Cross staff and volunteers, and peer support group sessions.

* More information is available in the country snapshots below.

UNFPA Funding Requirement

\$65.6 M required

59% funded

- UNFPA, along with other UN and humanitarian partners, is part of the revised [Ukraine Flash Appeal](#) and [Regional Refugee Response Plan](#) released on 25 April.
- UNFPA greatly appreciates the support of all of its partners in responding to the needs in Ukraine and in the region.
